ZONDERVAN ACADEMIC
ONLINE COURSES

Zondervan Academic offers a growing line of online courses for your school.

- **High quality.** Get professionally-filmed video lectures from Zondervan Academic authors. Lectures have been time-tested on hundreds or thousands of students.
- **Academically excellent.** Courses adapt content from award-winning Zondervan Academic textbooks, used in thousands of schools worldwide.
- **Beautifully designed.** An easy-to-use, intuitive design requires no extra training for you or your students.
- **Built by professors.** Course designers have masters- or doctoral-level degrees in biblical and theological studies. They each bring years of experience teaching both in classrooms and online.

Easy for you to implement.

- **Easy on your budget.** There are no set-up fees or up-front costs. You pay per-student, and you only pay for the accounts you need.
- **No technical work.** Courses are hosted in the cloud on the Biblemesh platform, which means no extra work or expense for your IT staff.
- **Easy to learn.** Courses will integrate with your learning management systems, which means you don't need to learn a new tool.

Right for your school.

- **Works from day one.** We'll set everything up for you. Courses work without any extra work from your team.
- **Customized for your school.** Make it your own. Faculty can add their own assignments, add course content, and upload materials to the courses.
- **Flexible to meet your needs.** Every school is unique. Numerous optional features are available—depending on your needs. Add discussion forums, messaging tools, calendars, and much more.
- **Enhance teaching and learning.** Whether you teach in a traditional residential classroom or your program is fully online, we provide digital tools that help your students learn.

Features

OVERVIEW

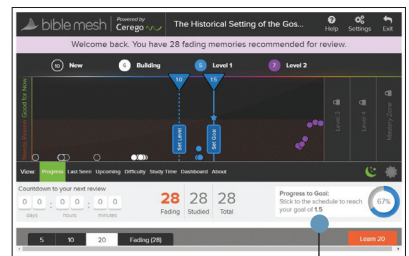

Students get access to professionally filmed video lectures from world-renowned scholars. Videos are enhanced with maps, photos, and other media.

STUDY

Students access textbooks from within the course. Readings and video lectures are integrated together.

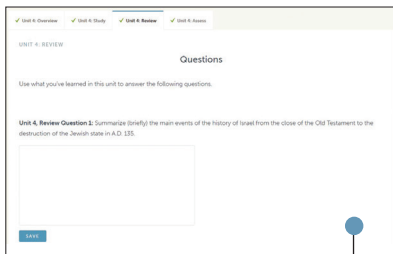

Keep students engaged while they study. Reflection questions are interspersed throughout the readings, which helps students articulate what they're learning as they learn it.

REVIEW

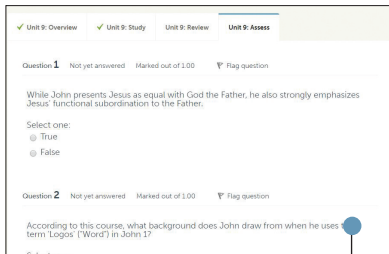

An adaptive learning tool figures out what students should study next. Students spend less time working on concepts they already know so they can devote their time to learning new material instead.

Make sure your students never pull another all-nighter again. They'll get reminders to review course material at the moment they're most likely to forget it. Regular and systematic review means success on the final exam and beyond.

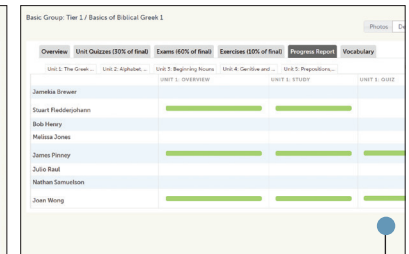

ESSAY QUESTIONS

Integrative essay style questions ensure students comprehend the key themes from each unit.

ASSESS

Students test their knowledge by taking a short quiz. You'll get an accurate assessment of their comprehension, because they're under a time limit to finish the quiz and they can only take it once.

INSTRUCTOR DASHBOARD

Track student progress in real time with an easy-to-use instructor dashboard.

Want to add your own materials to the course? No problem. Customize the course for your institution by uploading your own videos, readings, assignments, and more.
